

# Look at our maths working wall!

## Maths

This week, we are learning about...

exploring fractions parts whole

The vocabulary we will be using is...

piece whole  
numerator denominator part  
fraction mixed number

A question to think about...

Which shape has been split into 2 equal parts?

Can I identify denominators and numerator?

$\frac{3}{4}$  - numerator how many pieces you have

denominator  
How many equal pieces the whole is divided into.

Sentence stem  
The denominator is \_\_, because the whole has been divided into \_\_ equal parts.

Steps to Success

Name	notation	representation
one-sixth	$\frac{1}{6}$	
one-third	$\frac{1}{3}$	
one-half	$\frac{1}{2}$	
one-quarter quad	$\frac{1}{4}$	
one-fifth	$\frac{1}{5}$	

Unit fractions have a numerator of 1 (one)

Jackson says...

Michael has used sentence to identify numerators and denominators

Shardane has used her understand of vocabulary to identify fractions
