

Spain has a reputation for some fantastic and delicious food - have a go at **cooking patatas bravas**, one of their most famous tapas dishes!

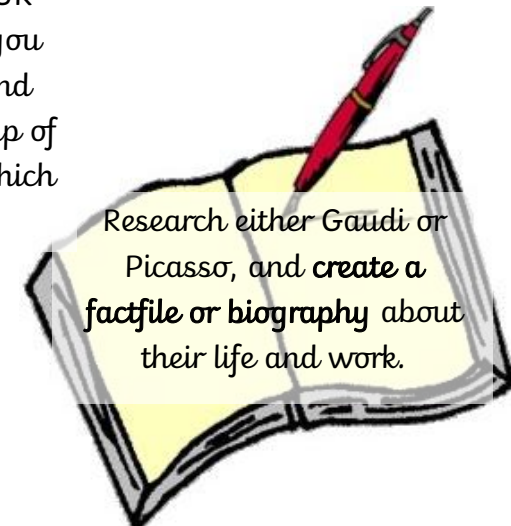

(recipe attached to the blog post)

Gaudi is a very famous Spanish architect and has designed some iconic buildings in Spain. Choose one of the following buildings, and do a detailed pencil sketch:

Sagrada Familia
Park Güell
Casa Milà
El Capricho

Make a glossary of these geographical words: **trade, economy, import, export, goods**
Research which goods Spain exports to the UK and imports from the UK and present what you find out - you could show what you've found out in a PowerPoint, or draw arrows on a map of Europe between the UK and Spain to show which goods are imported and exported.

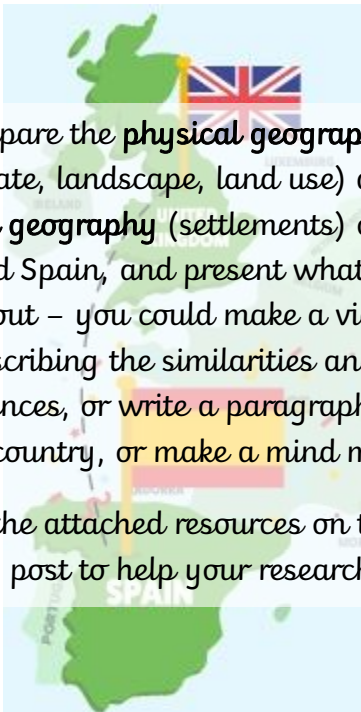

Research either Gaudi or Picasso, and **create a factfile or biography** about their life and work.

Why is Spain such a popular tourist destination?

Y5homelearning@ravensbury.manchester.sch.uk

Compare the **physical geography** (climate, landscape, land use) and **human geography** (settlements) of the UK and Spain, and present what you find out - you could make a video describing the similarities and differences, or write a paragraph for each country, or make a mind map.

(see the attached resources on this blog post to help your research!)

Picasso is a very famous Spanish artist. Learn to **create a self-portrait** in his cubist style!
